Letter No: 5018/226 dated 28th March 1900 from the Excise Commissioner in Mysore submitting a statement showing the consumption of arrack in the separate shops during the month of January 1900.

2. Also letter No: 6720/463 dated 30th May 1900 from the same office submitting a similar statement for February and March 1900.

Order thereon No 203 dated 9/7/00

S.R.F. 12 of 96

From the accompanying abstract it is seen that the consumption has decreased throughout the State (except in Tumkur and Shimoga) to the extent of 3366 gallons. The decrease is reported to be due to the high prices of food grains generally and the State, stoppage of work in one of the mines in the Kolar Gold Fields and evacuation of the Kolar Town on account of plague during the month of January 1900.

Issued 6/7/00 30/6/00

To The Excise Commr in Mysore

It is further added that the fall is also attributable to the great dullness of the weather — a reason which does not seem to be fully borne out by actual figures, as pari passu the consumption during the hottest months of every year viz May & June is higher than that during the majority (if not all) of the remaining months.
